

National Alliance for Environmental Reform

ADVOCACY FUND

Sensible environmental reforms have been proposed in the past, but little effort has been made to promote them. We will engage in powerful advocacy on behalf of common sense reform options — ensuring that policymakers and the public fully understand the need for reform, and are presented with sound ideas for providing a better balance to environmental laws and regulations.

NAER Advocacy Fund is a non-profit group created to promote sensible environmental reform options.

Specifically, we'll:

1. Conduct public education campaigns in key states around the country showing the problems with current environmental laws
2. Promote specific reforms through advocacy efforts in key states
3. Encourage grassroots support for reform ideas and enlist Americans to help communicate the need for reform to policymakers

NAER Advocacy Fund is a 501(c)(4) non-profit tax-exempt organization that can accept unlimited non tax-deductible contributions (EIN 81-0840283).
